## INDEX OF CHAPTER TITLES

### VOLUMES 1-5

#### PREFATORY CHAPTER

|  |  |           |
|--|--|-----------|
| The Future of Plant Pathology  | J. C. Walker                             | 1:1-4     |
| Opportunity and Obligation in Plant Pathology                        | E. C. Stakman                            | 2:1-2     |
| Toxins and Cell-Wall Dissolving Enzymes in Relation to Plant Disease | W. Brown                                 | 3:1-18    |
| Whither Pathology  | D. L. Bailey                             | 4:1-8     |
| Plant Pathology and the Plant Pathologist                            | A. E. Muskett                            | 5:1-16    |
| APPRAISAL OF DISEASE   |  |           |
| Serology in Virus Disease Diagnosis                                  | C. Wetter                                | 3:19-42   |
| Measuring Plant Disease  | E. C. Large                              | 4:9-28    |
| The World Situation of the Cereal Rusts                              | T. Johnson, G. J. Green, D. J. Samborski | 5:183-200 |

#### PATHOGENS

|  |  |          |
|--|--|----------|
| Heterokaryosis and Variability in Plant Pathogenic Fungi     | J. H. Parmeter, Jr., W. C. Snyder, R. E. Reichle | 1:51-76  |
| The Direct Assay of Plant Pathogen Populations in Soil       | J. D. Menzies                                    | 1:127-42 |
| Biology of Soil-Borne Viruses                                | C. H. Cadman                                     | 1:143-72 |
| Plant Virus-Host Cell Relations                              | K. W. Mundry                                     | 1:173-96 |
| Taxonomy of the Soft Rot Coliform Bacteria                   | D. C. Graham                                     | 2:13-42  |
| Parasitism Among Neotropical Phanerogams                     | F. L. Wellman                                    | 2:43-56  |
| Reproduction in Plant and Soil Nematodes                     | A. C. Triantaphyllou, H. Hirschmann              | 2:57-80  |
| Ozone Damage to Plants                                       | S. Rich  | 2:253-66 |
| Effect of Crop-Residue Decomposition Products of Plant Roots | Z. A. Patrick, T. A. Toussoun, L. W. Koch        | 2:267-92 |
| Factors in Survival of Nematodes                             | S. D. Van Gundy                                  | 3:43-68  |
| Deterioration of Stored Grains by                            |  |          |

|   |   |           |
|---|---|-----------|
| Fungi   | C. M. Christensen, H. H. Kaufmann                           | 3:69-84   |
| Problems in Speciation of Phytopathogenic Pseudomonads and Xanthomonads                   | H. Stolp, M. P. Starr, N. L. Baigent                        | 3:231-64  |
| Fungi as Vectors and Hosts of Viruses   | R. G. Grogan, R. N. Campbell                                | 4:29-52   |
| Chemical Treatments and Inoculum Potential of Soil  | S. Wilhelm  | 4:53-78   |
| Mechanical Transmission of Viruses of Woody Plants  | R. W. Fulton  | 4:79-102  |
| Problems of Air Pollution in Plant Pathology  | E. F. Darley, J. T. Middleton                               | 4:103-18  |
| The Hypersensitive Reaction to Infection by Bacterial Plant Pathogens                     | Z. Klement, R. N. Goodman                                   | 5:17-44   |
| Speciation in Verticillium  | I. Isaac  | 5:201-22  |
| Sites of Virus Synthesis Within Cells   | D. E. Schlegel, S. H. Smith, G. A. de Zoeten                | 5:223-46  |
| Taxonomic Problems Concerning the Phytoparasitic Nematodes                                | M. W. Allen, S. A. Sher                                     | 5:246-64  |
| MORPHOLOGY AND ANATOMY  |   |           |
| Degradation of Cellulose  | B. Norkrans   | 1:325-50  |
| Role of Cuticle in the Defense Against Plant Disease                                      | J. T. Martin  | 2:81-100  |
| Infection Process in Plant Virus Diseases   | A. Siegel, M. Zaitlin                                       | 2:179-202 |
| Histochemistry of Foliage Diseases  | N. Suzuki   | 3:265-86  |
| Plant Virus Inclusions  | F. P. McWhorter   | 3:287-312 |
| Pectic Enzymes in Tissue Degradation  | D. F. Bateman, R. L. Millar                                 | 4:119-46  |
| Anatomy of Plant Virus Infections   | K. Esau   | 5:45-76   |
| Ultrastructure of Fungi   | C. E. Bracker   | 5:343-74  |
| PHYSIOLOGY OF HOST-PATHOGEN INTERACTION   |   |           |
| Growth Regulators in Plant Disease  | L. Sequeira   | 1:5-30    |
| Physiology of Virus-Infected Plants   | T. O. Diener  | 1:197-218 |
| Host Response to Nematode Infection   | L. R. Krusberg  | 1:219-40  |
| The Physiology and Host-Parasite Relations of the Rusts                                   | M. Shaw   | 1:259-94  |
| Physiology and Biochemistry of Disease Resistance of Plants                               | K. Tomiyama   | 1:295-324 |
| Phytoalexins  | I. A. M. Cruickshank  | 1:351-74  |
| Influence of Plant Exudates on Root-Infecting Fungi                                       | M. N. Schroth, D. C. Hildebrand                             | 2:101-32  |
| Host Specific Plant Toxins  | R. B. Pringle, R. P. Scheffer                               | 2:133-56  |
| Biochemistry of Pathological Darkening of Plant Tissues                                   | B. A. Rubin, E. V. Artsikhovskaya                           | 2:157-78  |
| Biological and Physiological Aspects of Bacterial Wilt Caused by Pseudomonas Solanacearum | I. Buddenhagen, A. Kelman                                   | 2:203-30  |
| Host Responses to Vascular Infection  | C. H. Beckman   | 2:231-52  |
| Inhibition of Cellulases  | M. Mandels, E. T. Reese                                     | 3:85-102  |
| Metabolic Aspects of Spore Germination in Fungi   | P. J. Allen   | 3:313-42  |
| Natural Resistance of Wood to Microbial Deterioration                                     | T. C. Scheffer, E. B. Cowling                               | 4:147-70  |
| Fungus Toxins Affecting Mammals   | P. J. Brook, E. P. White                                    | 4:171-94  |
| Behaviour of Zoospores in Plant-Pathogenic Phycomycetes                                   | C. J. Hickman, H. H. Ho                                     | 4:195-220 |
| Nucleic Acid Metabolism in Obligate Parasitism  | R. Heitefuss  | 4:221-44  |
| Aromatic Compounds in the Host-Parasite Interaction                                       | R. Rohringer, D. J. Samborski                               | 5:77-86   |
| GENETICS OF HOST-PATHOGEN INTERACTIONS  |   |           |
| Variation in the Genus Phytophthora   | D. C. Erwin, G. A. Zentmyer, J. Galindo, J. S. Niederhauser | 1:375-96  |

|  |  |           |
|--|--|-----------|
| Recent Developments in the Genetics of the Host-Parasite System                    | P. R. Day                                | 4:245-68  |
| Genetics of Powdery Mildews  | J. G. Moseman                            | 4:269-90  |
| <b>EPIDEMIOLOGY-DISEASE IN POPULATION</b>  |  |           |
| Microclimate and Plant Disease   | P. E. Waggoner                           | 3:103-26  |
| Epidemiological Relations of the Pseudomonad Pathogens of Deciduous Fruit Trees    | J. E. Crosse                             | 4:291-310 |
| Dynamics of Seed Transmission of Plant Pathogens                                   | K. F. Baker, S. H. Smith                 | 4:311-34  |
| Epidemiology of Leafhopper-Transmitted Viruses                                     | C. W. Bennett                            | 5:87-108  |
| <b>INFLUENCE OF ENVIRONMENT</b>  |  |           |
| Climate and Forest Diseases  | G. H. Hepting                            | 1:31-50   |
| Environmental Relationships in the Powdery Mildews                                 | W. C. Schnathorst                        | 3:343-66  |
| Controlled Environment in Relation to Plant Disease Research                       | A. W. Dimock                             | 5:265-84  |
| <b>ACTION OF TOXICANTS</b>   |  |           |
| Chemistry and Physiology of Fungicidal Action                                      | R. G. Owens                              | 1:77-100  |
| Microbial Degradation of Synthetic Compounds                                       | D. Woodcock                              | 2:321-40  |
